

HYEONSEONG KIM

✉ hyeonseong03@hanyang.ac.kr  [Google Scholar](#)  [LinkedIn](#)  [GitHub](#)

Education

Hanyang University

Mar. 2022 – Feb. 2026

B.S. in Computer Science, Valedictorian (1st in Class)

GPA: 4.45/4.5

Awards & Honors

Naval Academy Superintendent's Award, Millitech Challenge

2024

Project: AI-Based Object Recognition Utilizing Sensor Data for Autonomous Driving

Publications

Inconsistency-Aware Minimization: Improving Generalization with Unlabeled Data

ICML 2026

*Hee-Sung Kim, **Hyeonseong Kim**, Sungyoon Lee*

- Developed IAM-D, a direct regularization method incorporating local inconsistency into training objectives, enabling label-free generalization improvement.
- Validated the algorithm across supervised image classification benchmarks (CIFAR-10/100, F-MNIST, SVHN), ViT architectures, and self-supervised frameworks (SimCLR).
- Integrated IAM-D into the FixMatch framework, achieving 28.95% test error on semi-supervised CIFAR-100 (2500 labels) and significantly outperforming the baseline (32.84%).

...(LLM Jailbreak, Interpretability)...

(Ongoing work)

Hyeonseong Kim

Research Experience

LRNING Lab, Hanyang University | Advisor: Prof. Sungyoon Lee

Nov. 2024 – Feb. 2026

Undergraduate Researcher

- Designed and implemented IAM-D algorithm, integrating local inconsistency as a plug-and-play regularizer into supervised, semi-, and self-supervised training pipelines.
- Validated across CIFAR-10/100, F-MNIST, SVHN, ViT architectures, FixMatch, and SimCLR frameworks.

Agency for Defense Development

Jun. 2026 – Present

Research Officer

Research Interests

Adversarial Machine Learning & Robustness / LLM Safety & Jailbreaking / Generalization Theory /
Information Geometry / Semi- & Self-supervised Learning

Skills

ML/Infra: PyTorch (incl. DDP multi-GPU), NumPy

Languages: Python, C/C++, Java

Tools: Linux, Git, $\text{\LaTeX}$, Overleaf, Wandb, SLURM

Scholarships

Academic Excellence Scholarship, Hanyang University

(2022 – 2023)

National Science and Technology Scholarship

(2024 – 2025)
